A policy of extending for future business rather than for immediate profits was enunciated by Hon, D. C. Cameron, President of the Maple Leaf Milling Company, at the annual meeting of shareholders the other day. Milling Company, at the annual meeting of shareholders the other day. Mr. Cameron stated that particular care was being paid to establishing the company's grades of flour in foreign markets, and it was the intention to pay more attention to foreign trade than to domestic.

Mr. Hedley Shaw, General Manager of the company said, in part:—
"As intimated in my last report, the directors considered it advisable to increase the capacity at Port Colborne. A short time ago contracts were let with the Allis-Chaimers Co., for machinery, which will increase the capacity at Port Colborne from 4,000 to 9,000 bbls. per day. We are also adding to our grain elevator forty new tanks which will give us grain capacity at Port Colborne of 1,500,000 bushels. All the work will be completed and ready for the growing crop. This will make the Port Colborne most modern milling plants in the world. ### ATTACK ON CANADA IN WALL STREET

There has been no change in Can adian industrial conditions to warran

adian industrial conditions to warrant the unprecedented simp in Canadian Pacific Rallway shares. The stock may have been too high when it sot up towards 300, but there appears to be a great deal in the contention that a certain Wall Street crowd have made it the chief object of attack during the last few weeks. The operators in question are said to be the same men who for two or three years past have boomed all things Canadian; and boosted "C.P.R." as high as it would go. Having thus made a lot of money or the builtings as the same men who for two or three years past have boomed all things Canadian; and boosted "C.P.R." as high as it would go. Having thus made a lot of money or the builtings as the same thing on the bear side. So the story is that they inspired the adverse articles "egarding Canadian, and especially Canadian Pacific Rallway prospects that have appeared in certain American newspapers. Accompanying this publicity movement there has been a series of persistent bear raids on the issue. Unsettled market conditions abroad have facilitated the campaign, but we may rest assured that when the operators have made all the money they can on the bear side they will turn around and "bull" the stock and things Canadian for cil and perhaps more than they are worth, and thus obtain more profits on the rise.

One thing is certain. If the stock was ever warranted in selling anywhere near 300 it is not dear around 200. The security has behind it the greatest transportation franchise and property in the world. The ct.-pany's land holidings are very valuable, and it has abundant cash reserves. The main highway across a rapidly-developing continent, and the chief route between Europe and Asia the road is bound to increase its business enormously in the next iew years. Meantime Canadians hould not over emphasize the significance of what has evidently been a partly manipulated decline in the country's premier security and chief advertisement.

Money has been tight all over the world but the process of recuperation is

me surope and the United States, as well as in Canada, have compelled their customers to get along with less accommodation than they thought they needed, and as a result one hears of a growing accumulation of capital that will in the long run be tempted from its hidding places by perhaps somewhat higher rates of interest. A few months more may be required in nomewhat higher rates of interest. A few months more may be required to reatore the equilibrium, but there is no reason for counsels of gloom. Especially is this so in a new and wealthy country like Canada, which is receiving hundreds of thousands of immigrants every year an expleiy extending its production of real wealth from incohausithle natural re-acquees.

#### A Warning to Girls.

The following warning to girls, issued by the National Vigilance Association of Scotland, is worthy of the serious attention of young girls in Canada going from home, especially from country sections to the great cities.

Owing to thousands of innocent girls being led into great danger each year through ignorance, we would

1. Never speak to strangers, either men or women, in the street, in shops, in stations, in trains, in lonely country roads, or in places of amuse

2. Never ask the way of any but officials on duty, such as policemen railway officials or postmen.

3. Never loiter or stand about alone in the street, and if accosted by a stranger (whether a man or woman) walk towards the nearest policeman.

4. Never consent to accompany woman home who apparently faints in the street, but call a policeman and leave the case to him

5. Never accept a lift offered by a stranger, in a motor, or taxi-cab,

or vehicle of any description.

6. Never go to an address given 6. Never go to an address given by a stranger, or enter any house, restraurant, or place of amusement on the invitation of a stranger. 7. Never go with a stranger (how-ever dressed) who brings a story of

your friends having suffered from accident or being suddenly taken ill, as this is a common device to kidnap girls.
8. Never accept sweets, food, or

drink offered by a stranger.

9. Never take a situation away

from home and especially abroad, without first making strict inquiries.

10. Never go to any town, for even one night, without knowing of some safe lodging.

11. Never change your residence without first applying for information and advice to some person whom you can trust, such as your own
